

Using my Chromebook

1. Open up your Chromebook and plug it in to charge it first using the power cable provided
2. Press the **power button** located in the top right-hand corner of the keyboard if your Chromebook does not power on
3. Automatically
4. In your computer's Wi-Fi settings, search for the Wi-Fi that matches your wireless **SSID** on your home network
5. Select the **matching SSID** and hit **Connect**
6. Enter your wireless **Password** (Security Key). *Ask your parents if you do not know it.*
7. Logging in – Your Chromebook should have your username already configured for you. For reference is your StudentID Number @ SD162.ORG. For example, mine could be 2246917@sd162.org
8. Enter in your password, which is your Student ID Number followed by the word *google* in lower case. For example, my password would be 2246917google
9. If you do not know your password or forget it, please contact your teacher, your school or you can email helpdesk@sd162.org
10. Once logged in follow instruction from your teacher. Launch the Google Classroom App from the dock at the bottom of the screen and look for very important information from your teacher within Google Classroom.
11. Other Apps are installed as requested by your teacher.
